

## Simplify and Streamline Your Recruiting & Hiring Process

For Human Resources Professionals who need to simplify and streamline the recruiting and hiring process, applicantONE is an easy, affordable and customizable on-demand application that boosts productivity by coordinating hiring efforts across an organization. Unlike other ATS solutions, applicantONE is completely tailored to each client's business model, corporate branding and culture. applicantONE adheres to our clients' processes and best practices, not vice versa.

### What Makes applicantONE Different?

- applicantONE is designed to be **YOUR** Applicant Tracking System
  - We replicate your forms and hiring procedures to provide a system tailored to your recruiting process
  - We tailor the requisition and application forms with the information as you need it
  - We configure the system according to your internal hiring workflow
  - We customize your career website to coordinate with your corporate branding
- applicantONE is a no-risk solution with an affordable monthly rate and no term contract – we let our system speak for itself
- Unlimited user access allows for collaboration between hiring managers and human resources staff
- Internal process logging to track users actions on each requisition
- Direct integration with screeningONE's system allows you to seamlessly order and receive background and drug screening services as part of your hiring process
- No more clunky integrations between two different providers or costly fees to integrate your ATS and background screening system
- One customer service team for both your ATS and background screening needs
- applicantONE reduces manual data entry by integrating your career page, hiring process, background screening, drug testing and on-boarding
- One unique, easy to use interface allows direct visibility into all of your systems - with applicantONE you have access to your hiring process, personality profiling, drug testing, background screening and billing statements

### Key Features:

- Company-branded site enhances your corporate image while allowing candidates to easily apply for open positions
- Simple, easy to use interface assures maximum adoption across your organization
- Consistent application process ensures that each applicant provides information relevant to the job requisition
- Custom forms module allows you to quickly and easily build forms for use in your hiring process
- All applicant information is stored in one easy to access database
- Dashboard feature allows you to quickly identify log jams in the process and easily measure return on investment
- Increased communication with candidates through integrated calendar and messaging systems
- Electronic signatures ensure compliance and save time and paperwork
- Sorting capabilities allow you to quickly evaluate candidates and pinpoint the best talent
- Archiving resources and enhanced search capabilities allow you to categorize and store past applicants and quickly retrieve information for future requisitions
- System-controlled approval steps and customized evaluation ensure consistent review of each candidate from all appropriate parties

*Simple. Affordable. Customizable.*
